Annual Report 2025–2026 - Inayatiyya Healing Activity

During the 2025–2026 year, the Healing Activity received a number of enquiries. Some of those who enquired went on to begin the seven-month training programme and subsequently joined the weekly Healing Service.

We continued to offer a number of monthly online events, primarily for members of the Healing Activity.

The Haywanat group, which was aimed at young adults, ceased its activities during the year.

The Prayers for World Healing events, co-organised with the School of Christian Mysticism, continued to take place monthly. Each gathering focused on a different theme and provided an opportunity for prayer and reflection for the healing of the world.

Our monthly gatherings, consisting of workshops and talks led by experienced members of the Healing Activity, attracted between 6 and 28 participants. Attendance was predominantly from the Inayatiyya UK community. Sarida's workshop in December 2025 was particularly successful, attracting participants from around the world. We also invited a Conductor from Inayatiyya France to lead a workshop this year.

The Wednesday weekly healing service for Conductors and Trainees has continued throughout the year, providing free distance healing to several people on the weekly healing lists. Attendance from both Conductors and Trainees has remained regular, with a strong and consistent group between 4 and 12 participants.

Newsletter, Community Board, Charitable Support

In 2025, we introduced the Community Board**,** a dedicated section within the newsletter where members can share healing stories, reflections and personal writings. In 2026 we have introduced support for a monthly charity.

We have planned a seven-day silent retreat, and much of our administrative work, together with workshops on Mandalas and Dreams, has helped us attract new members. We have chosen a venue in the West Country as part of our intention to expand our activities into different areas of the UK.

The financial statements are provided in separate attached documents.

The financial year for Inayatiyya Healing UK runs from**1 June 2025 to 31 May 2026**.

Conclusion

The 2025–2026 year has been one of continued service, connection and development for the Inayatiyya Healing UK community. The Healing Activity has welcomed new enquiries and trainees, maintained regular healing services and continued to provide opportunities for learning, prayer and spiritual connection through its monthly gatherings and online events.

The ongoing participation of Conductors and Trainees in the weekly healing service reflects a strong and committed core of practitioners. The continuation of the Prayers for World Healing events has also strengthened our connection with the wider community and supported our shared intention for the healing of the world.

The introduction of the Community Board and monthly charitable support has further encouraged members to share their experiences and extend the values of compassion and service into the wider community.

Looking ahead, we are planning a series of introductory days in different locations, with different Conductors, reflecting the geographical areas where our Members live.
We would like to encourage Conductors and Trainees to take an active role in spreading the healing message far and wide.
