

Inayatiyya UK Healing List Report

The Healing List consists of people who have requested to have their names added through the IHO office or Conductors.

The names are on the Healing List, initially for a month and often this is extended at their request as many today have a long term need for prayers. At the moment we have 40 names on the List.

The Healing List is divided between groups of Conductors and there are usually between 8 and 10 names on each list. A new set of names are sent to Conductors every two weeks. At the moment we have 27 Conductors who receive the names.

If any Conductors would like to join with us in praying for those who have requested healing, please contact me through info@ihuk.org and I will add your name.
